

Check Assist ACH Integration

Gym Assistant 2.0

www.gymassistant.com

August 2008

System Requirements

- This implementation requires Gym Assistant v2.0.1 build 230 or higher. To download the newest versions of Gym Assistant and ProShop, please go to:
<http://gymassistant.com/download/beta>
- **Windows Firewall** (or whatever firewall software you are using) must allow Gym Assistant to establish a secure connection to the internet.

Enter Bank Debit Processing Settings in Gym Assistant

- In Gym Assistant select **Bank Debit Processing** from the **Settings** menu.
- Set the **Processing Method** to **Check Assist**.
- Click the **Settings** button.
- Enter the Site ID that you received from Check Assist.
- Enter 0000 (4 zeros) in the Merchant ID field.
- Enter the Site Key that you received from Check Assist.
- Enter the name of your business in the Payee field.
- Click OK when you are finished.
- Select **Through Gym Assistant**, then click OK.

You are now ready to begin processing ACH (bank debit) transactions directly within Gym Assistant!
