Genius Device Setup for Gym Assistant Software

May 23, 2023

Introduction

The Global Payments (TSYS) Genius Payment Platform allows you to accept many forms of credit card payments: swipe, chip, tap and even ApplePay.

Device Setup

Setup your Genius device according to the instructions that came with the device.

- Attach the utility cable
- Attach the power adapter
- Connect your device to your network
- Check your connection

Gym Assistant Setup

In Gym Assistant select Credit Card Settings from the Billing menu.

Genius Terminal Dev	rice
🗹 Use Genius Ter	minal Device for this workstation
Name:	
SiteID:	
SiteID: Key: IP Address:	

Enter the Account Name, SiteID and Key that you received from Global Payments.

Under **Batch (Keyed) Transactions**, check **Use same account as Swiped Transactions** to copy those fields from the Swiped (Card-Present) Transactions section.

Click Test to test the Batch (Keyed) Transactions connection settings.

Under Genius Terminal Device, check Use Genius Terminal Device for this workstation.

Name, **SiteID** and **Key** field values should be copied automatically to the Genius Terminal Device settings.

Get the IP Address of your Genius device:

• Use the keypad to press 1, 5, and 9 at the same time.

- Tap **Com Control**.
- Tap LAN or WiFi.
- Tap **Configuration**, and then use the keypad to enter the password. The default password is 200331.
- Tap IPv4.
- Note the **IP Address**.

Enter the IP Address into the Gym Assistant Settings dialog.

Click **Test** to test the connection to your Genius device.

Click OK.

Run a Test Charge

Note: This procedure will put a \$1 charge on your credit card.

Select Special Features from the Utilities menu.

Select Run Test CC Charge, and click OK.

Gym Assistant						×
	Tran	isaction ar	mount:			
1.00						
		_				
	<u>C</u> ancel			<u>О</u> К	R.	

Click OK.

The Complete Payment window will appear.

Swipe the card, insert the card into the chip slot, or tap the card to complete the payment.

To Cancel the payment, click Cancel.

To manually enter a credit card number (not recommended), click Key in CC Info and follow instructions on the terminal.
